

The Manager *DAN MCNAMARA*

Good evening everyone, and welcome to SEAH Stadium for our first match in front of our own fans this summer, as we continue preparations for what promises to be an exciting first-ever season in WSL 2.

The past three months, since that incredible day at Burton in May, have been remarkable for so many reasons, from bringing in ten new signings and securing professional contracts for 14 of our retained players, to moving into our own facilities at Compton Park.

We are building an incredible group of players here and are really looking forward to seeing what this historic season will bring. Preparations are now ramping up, and tonight's game against Forest will be a big test for us, particularly given how well they established themselves in the division last season.

Forest made the step up to tier two brilliantly, and there is plenty we can learn from them, not just tonight, but also from our incredibly close FA Cup fixture last season, when we felt that, on another day, we could have taken something from the game.

It is fantastic to see so many familiar faces here tonight – and hopefully plenty of new ones too. I know how excited our brilliant fan base is for the season ahead.

Hopefully, tonight will give you a good glimpse of some of our new signings and the qualities that made us so keen to bring them to the club.

Enjoy the game.

Macca

Sunday 9th August

PORTSMOUTH 0 VS WOLVES 3

(Marshall 28', Hughes 32', Worsey 85')

Wolves Women continued their pre-season with a 3-0 win over tier three side Portsmouth following a late venue switch.

With Petersfield Town's ground deemed unplayable by both sides, the game was moved with late notice to the King George V Football Complex, where Georgia Marshall, Amber Hughes and Louanne Worsey all found the back of the net.

Wolves XI: Brooks, Sims, Marshall, Matthews, Roberts, Roberts, Lawley, Williams, Olding, Daniëls, Filis, Hughes

Subs: Orman, Doran, Morphet, George, Greengrass, Anderson, Jones, Francis, Jenner, Worsey

Pre-Season

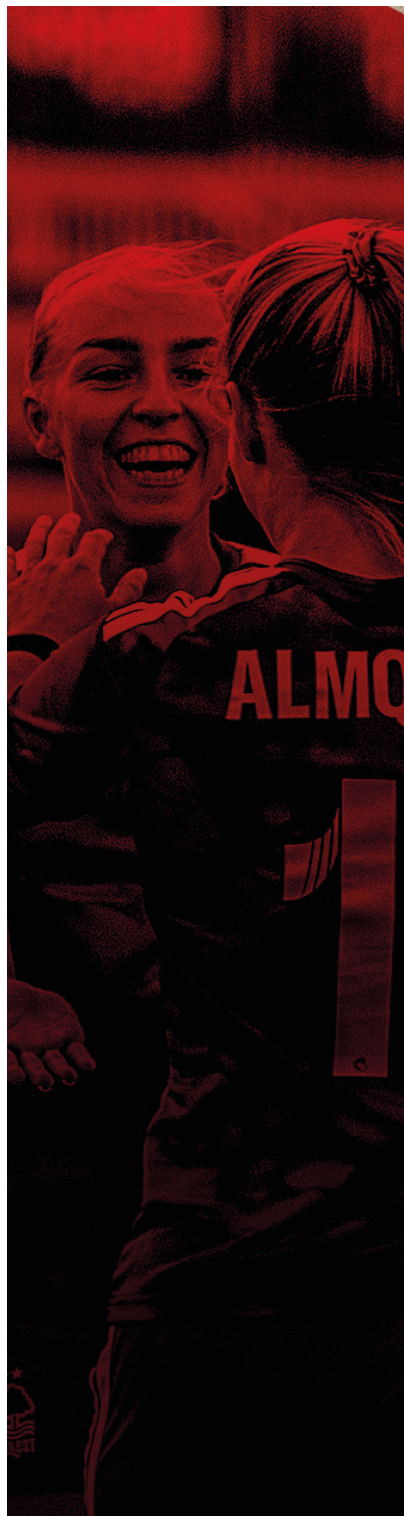

Nottingham Forest Women were founded in 1990 and have since achieved many honours throughout their acclaimed history.

Originally named Nottingham Forest Ladies FC, the Reds previously operated on a volunteer basis for administration and coaching and managed to maintain their status within competitive women's football thanks to their impressive local support in Nottinghamshire.

In 1996 players Donna Hilton and Lisa Dawkins launched Nottingham Forest WFC's junior programme in order to establish a career development pathway for female footballers. Continuing to progress, Forest Women added a reserve team programme in 2005 to bridge the gap between their senior team and junior programmes; this improved further with the addition of a development team programme in 2018.

The Reds found success on the pitch in the 2007/08 season, winning the FA FPL Northern Division title and promotion to the highest level, going the entire league campaign unbeaten.

Nottingham Forest FC entered a partnership with Forest Women in April 2018 whereby the women's side could access the then, EFL Championship side's resources as well as important support through their financial backing.

The Reds' evolution continued in December 2018, when the club hired their first full-time staff member, recruiting a general manager responsible for increasing standards of the club, on and off the pitch, as they prepared for upcoming promotion campaigns. The biggest change was implemented ahead of the 2019/20 season. The club revised their name and logo, dropping the word ladies, with both the men's and women's teams committing to a one-club approach for Nottingham Forest FC.

Forest Women then hired their first ever full-time head coach to manage the development of all on-field football aspects for the Reds, from the senior team to the junior programmes. They achieved their most successful season to date by winning the FA Women's National League Cup and FA WNL Northern Premier Division in the 2022/23 season.

In July 2023, Nottingham Forest announced the full integration of Nottingham Forest Women into the wider football department at the club. This saw the women's first team move to a professional hybrid model for the 2023/24 season as phase one of a strategy to ultimately create a full-time professional team.

The 2024/25 season saw them move to playing all home league games at The City Ground and they celebrated at the end of the season with a league and cup double, winning promotion to WSL2 where they finished in a creditable seventh place in their inaugural campaign.
